

A close-up photograph of a vehicle's fuse box and relay block. The fuse box is a grey plastic unit with a white cover. The cover is open, revealing a grid of fuses. The fuses are color-coded: red for 10A, green for 20A, blue for 15A, and yellow for 7.5A. The relay block is a white plastic unit with a black cover. The cover is open, revealing a grid of relays. The relays are color-coded: red for 10A, green for 20A, blue for 15A, and yellow for 7.5A. Red arrows point to the fuse box cover, the fuse box itself, and the relay block.
